

Organizational Profile

The purpose of our Organization is to spread the culture of Safety, Protect the environment, Prevent injuries caused by common workplace accidents, in addition to the following:

- **Carryout Environmental Initiatives regarding the reduction of Pollutants**
- **Perform Several Recycling Programs with NGOs and Municipalities.**
- **Encourage the Use of Renewable Energy Sources.**

We believe that organizations cannot be sustainable without protecting the safety, health, and welfare of their most vital resource: **WORKERS.**”

During the last three years, we have been working with the goal of improving the quality of life of the people through the proper management of natural resources, developing activities aimed at sustainable development, including community awareness program, which has allowed us to know and share with many people what we are doing in the community.

Nevertheless, we have had the pleasure of working with many multinational and local companies, businesses and entrepreneurs around the world developing our collective global mindset.

OBJECTIVES:

- ❖ Make safety a priority in all public & private places: *entertainment centers, roads, industrial projects, commercial and residential buildings, power plants, laboratories, hospitals, etc.*
- ❖ Keep pace with the engineering sciences and develop the required safety standards and regulations required for the safe progress of work.
- ❖ Provide safety and quality monitoring programs during the work execution phase in terms of risk assessments for both mechanical and electrical tasks.
- ❖ Contribute continuously to the reduction of work accidents through the available methods, procedures, and tools used for the protection of people, machines and equipment.
- ❖ Raise awareness about the use of **PPE (Personal Protective Equipment)** at work.
- ❖ Deal with emergency and crisis management systems that require public support for planning initiatives and participation by a wide variety of responders, technical experts and citizens.
